

Diabetes Facts & Figures

The American Diabetes Association reports that **26 million** children and adults in the US are living with diabetes. An additional **79 million** – that's 1 in 3 Americans – have pre-diabetes which puts them at an increased risk for developing Type 2 Diabetes. Diabetes is a silent epidemic ... it is reported that $\frac{1}{4}$ of those who have diabetes don't know it! Undiagnosed, diabetes can lead to deadly complications including blindness, amputation, heart attack and stroke. Early detection is critical.
